FUNDING OPPORTUNITIES

COMMUNITY INFRASTRUCTURE

Indian Housing Block Grant (IHBG) Competitive Grant Program

Department of Housing and Urban Development

Deadline: March 19, 2024

Eligibility: Native American tribal governments (Federally recognized), Native American tribal organizations (other than Federally recognized tribal governments)

Award: \$500,000-\$7,500,000; no match

The IHBG program is authorized under Title I of the Native American Housing Assistance and Self-Determination Act of 1996, as amended, (25 U.S.C. 4101 et seq.) (NAHASDA). Under the program, eligible Indian tribes and tribally designated housing entities (TDHEs) receive grants to carry out a range of affordable housing activities. Grant funds may be used to develop, maintain, and operate affordable housing in safe and healthy environments on Indian reservations and in other Indian areas and carry out other affordable housing activities. Grant funds must be used to primarily benefit low-income Indian families.

HUD strongly encourages new affordable housing construction projects that will increase the number of housing units available for low-income Indian families and help address the housing shortage in Indian Country. Additionally, HUD encourages housing rehabilitation projects that will increase the useful life of existing affordable housing units and alleviate substandard housing conditions. HUD also encourages the acquisition of existing housing units that increases housing stock and necessary affordable housing-

related infrastructure projects that will enable future construction or rehabilitation. While HUD will give funding priority for new housing construction projects, housing rehabilitation projects, acquisition of existing housing units that increase affordable housing stock, and necessary affordable housing-related infrastructure projects, applicants may also apply for funding to carry out other eligible activities under NAHASDA. Finally, Indian tribes and TDHEs that are applying for funding under this NOFO are encouraged to propose projects that are part of a comprehensive plan to address housing conditions in their communities, including overcrowding, physically deteriorating units, and housing that is inaccessible for individuals with disabilities as appropriate.

Environmental and Climate Justice Community Change Grants Program

Environmental Protection Agency

Deadline: Nov. 21, 2024

Award: Track I grants are expected to be \$10-\$20 million; Track II grants are expected to be \$1-\$3 million each. No match.

Eligibility: To be eligible, applicants must be a partnership between two community-based nonprofit organizations or a partnership between a CBO and one of the following: a federally recognized Tribe, a local government, or an institution of higher education.

The Environmental and Climate Justice Community Change Grant program (Community Change Grants) will fund community-driven projects that address climate challenges and reduce pollution while strengthening communities through thoughtful implementation. The EPA will consider applications under two separate tracks:

- Track I applications – Community-Driven Investments for Change will focus on multi-faceted applications with Climate Action and Pollution Reduction Strategies to meaningfully improve the environmental, climate, and resilience conditions affecting disadvantaged communities. Awards under Track I are expected to be \$10-20 million each and cannot exceed \$20 million. Examples of projects include Green infrastructure development, Energy efficient housing, Microgrid installation, disaster preparedness “community resilience hubs,” landfill work, workforce development, and more.
- Track II applications – Meaningful Engagement for Equitable Governance will facilitate the engagement of disadvantaged communities in governmental processes to advance environmental and climate justice. Awards under Track II are expected to be \$1-3 million each. Track II applications should focus on breaking down systemic barriers to community participation in government processes impacting environmental and climate justice. This can be done by creating engagement and feedback mechanisms with two-way communications between community members and government decision-makers. Applications should focus on ways to provide disadvantaged communities with information about issues that directly impact them, while simultaneously creating mechanisms for the government to gather input to ensure community needs inform decision-making and are integrated into government processes and policies.
